She told of the war-ravaged churches which the Filipinos are trying to rebuild with native materials in an effort to provide churches in which to worship. In many cases, she said, the people must sit on the floors because the pews were destroyed by the Japanese.

A lack of materials for clothing, hospitals, schools and Sunday schools was one of the great needs cited by Mrs Houper.

In her trip, the missionary also visited Siam to determine the extent of war loss to the foreign missions there. #### Lancaster Unionists Test State Law on **Jobless Benefits**

HARRISBURG, Oct. 29 R-A new law banning jobless benefits to strikers came in for its test today since becoming effective July 1.

The unemployment compensation board of review heard a union contention that the statute had no bearing on a 40-day strike of 3000 workers of the Armstrong Cork company Lancaster, which ended July 15, two weeks after the amendment went into effect.

Sidney Birnbaum, Newark. N. J., counsel for the CIO-United Rubber, Cork, Linoleum and Plastic Workers of America. Local 285, asked the board to overrule a decision of both a referee and the bureau of employment and unemployment compensation which denied approximately \$90,000 in benefits

"We contend the law was not passed until the rights of the party actually became fixed." he said. "The nature of the law is prospective in nature, not retrospective.

The test case involved the claim of Leroy E. Emmerich. Lancaster. one of the strikers who served a four-week penalty period after the walkout started May 28.

Birnbaum claimed the workers were eligible for benefits June 28three days before the new law went into effect—subject to another week's waiting period.

The new amendment prohibits jobless benefits to anyone involved in an industrial dispute. It eliminated an old section which allowed compensation to strikers who served the fourweek penalty period but retained a one-week waiting period required of all claimants.

William B. Negley, supervisor of claims appeals in the unemployment compensation bureau, opposed the union's stand, declaring claims are technically determined on each new week of unemployment. "These men could have returned. to work at any time during the

strike," he said in emphasizing "that each week is subject to examination (for eligibility) unto it-H. L. Bitner, counsel for the Arm-

strong firm, joining in the opposition, said the workers failed to serve the one-week waiting period, required in addition to the fourweek strike penalty period, before the new law took effect. Board Chairman Harry Engle-

hart said a decision on the case, expected to set a precedent for all claims by workers who were in the midst of a strike at the time the law went into effect, would be handed down in about three weeks.

> BIRTH - Carl E. Christman, who operates Norman Bechtel's Spring City farm, reports the birth of twin calves to one of the Guernsey cows on the farm. Christman went out to the barn at 12:30 o'clock Tuesday afternoon and helped with the delivery of the first calf. Thinking everything was over, he left the proud mother with her child. Later in the afternoon he returned to see how they were getting along and found a second calf she had given birth to in his absence. The calves, both females, bear a strong resemblance to each other and may be identical twins.

ODDS - If you had \$17,000,000 and

a friend had a lone dollar, would you bet your fortune against the buck that you could toss a paper into the air and catch it as it falls? You probably wouldn't. The odds are all out of proportion-to the risk. Now you may think, too, that nobody in his right mind would take such a chance. Ah, that is where you're wrong. Thousands of apparently sane Americans do it, not once, but many times each year. But they are wagering years against minutes. Actuaries tell us that an average adult of 35 has 17,000,000 minutes yet to live. Every time he takes a chance to save one minute, he wagers all his remaining years. In other words, when you gamble with safety, you bet your life and you can't afford to lose.

#### TIME IS SHORT! GIVE TO THE COMMUNITY CHEST!

T SUPPOSE most kids don't give too much thought to 1 parents—unless they don't have 'em. I was an orphan myself, so I know.

And I suppose no future major leaguer, sliding into home plate on a sandlot, ever thanked God for his legs -but he would if he'd ever had to wear steel braces, like so many kids do.

I like to see kids get a break. And every day thousands of them are getting that break through the Red Feather services of the Community Chest.

Maybe it's in the form of a loving foster mother or dad . . . maybe it's the finest medical care when he's sick . . . maybe it's the training and example of clean living and straight thinking he gets in a "Y" or a scout troop . . . Maybe it's the fun of a summer camp. Whatever it is, it's a swell break, and I'm for it. Everybody gives. they say, to the Community Chest campaign. And it's easy to see that when youngsters in a town get a chance to grow up with love and happiness in their lives, everybody in that town benefits.

So you don't have to BEG me to give. I'm proud to have the chance.

Everybody benefits ... Everybody gives COMMUNITY CHEST

to, pay about \$1.05 a barrell and that it was overcharged approximately \$33,000,000.

In return for 40-cent Arabian oil, Moffett said, the United States was to advance King Ibn Saud of Saudi Arabia \$6,000.000 a year for five years. The king owned the oil fields for which the Texas company and Standard of California held the concession in the name of a subsidiary, the Arabian-American Oil company (Aramco).

W S S Rodgers, poard chairnan of the Texas company, today genied that the Navy was overcharged. He said the price paid was "eminently fair and reasonable" -and declared the proposal for 40cent oil never was accepted by the Government Rodgers testified that Aramco was

eager to have the United States advance money to Ion Saud to block development of British influence in the Saudi Arabian area. He said also that the king was faced with of the Texas company and Standard | a "serious deficit" at the time Moffett laid the proposal before Mr Brewster eited State depart-

'And we got absolutely nothing for it." Brewster said, adding that the Moffet proposal for 40 cent oil

The Maine senator said Aramco could charge "what it felt was a fair price for the oil." and that this amounted to \$1.05 a barrel.

Rodgers said the United States has been amply repaid and will be over the years" He added: "I am thoroughly convinced that the United States got a break. I think the shoe is on the other foot."

The committee memorandum from Rodgers to Harold L. Ickes, then secretary of and that it calls for removal of the interior and petroleum administrator, stating that on Feb. 8. 1943. Aramco offered to provide the government: 1. Enough oil to offset any lend-

lease advances to Ibn Saud, "at a price well under the world price and reflecting only production costs and a nominal profit." 2. An option on a unspecified ad-

ditional supply of oil at a percentage of the prevailing market price.
Brewster said the week after this offer was made. Mr. Roosevelt qualified Saudi Arabia for lend lease by making a finding that "the defense of Saudi Arabia is vital to the defense of the United States."

But the senator added that at this

point the Rodgers proposal to Ickes 'evaporated and was forgotten." Rodgers testified it was "completely ignored" by the Government and "we never heard about it again."

Sabo Kicking-No, It's a Fake

-Mercury Staff Photo

When it's third down and a few yards to go for a first down, the Falcons often come through with their take kick play. Steve Sabo (right) does back to kick. He receives the ball from the center but instead of kicking, he hands the pigskin to Joe Dori (left) who runs around the West Pottsgrove fullback and heads for the sidelines. The play picked up nice gains for the Falcons against Pennsburg a few weeks ago. The Falcons are brushing up their offense daily for their game with Schwenkville at Schwenkville Saturday.

#### Chicago Sox and O'Connor Suspended by Chandler for Refusing to Pay \$500 Fine

CHICAGO, Oct. 29 (AP)—The Chicago White Sox of the American league and Leslie O'Connor, general manager of the club — himself a rigid enforcer of baseball rules for 24 years, today were suspended from baseball by Commissioner A. B. Chandler for refusing to pay a \$500 fine for signing a player still

in high school. The student signed in violation of a rule interpreted by Chandler is George Zoeterman, a pitcher and senior at Chicago Christian High school, a Lutheran institution. Zoeterman is 17 years old and will be graduated next January.

In Cincinnati, Walter Mulbry, secretary to Chandler, explained that the suspension against the baseball club and O'Connor would be lifted when O'Connor paid the fine. However, the 59-year-old executive, who served as secretary to the late Kenesaw Mountain Landis whom Chandler succeeded as commissioner, indicated that he would fight the penalty since, he contended, no violation existed.

The high school rule, as orilooms today as the No. 1 solid which were members of the National Federation of High School associations. Coach Harry Fox has only three lettermen back from the 1946 team that dropped a 27-0 decision to the Trojans at Conshohocken. Fox, however, received a big gift when plavers of West Conshohocken High reported for football this season. West Conshohocken High has been eliminated and all public school students of Conshohocken attend one high school.

Some of the gridders from West Conshy stand over 6-feet and weigh around 190 pounds. Fox has built a huge line to protect his backs and high school teams have found Conshohocken High to have one of the oughest teams in the Philadelphia area this year.

Win Bean, former West Pottsgrove High coach, is assisting Fox with the coaching duties at Conshohocken this Fall.
